

Proposed Improvements in the Parish: Update

- Station Road, Credenhill
 - Response to the informal consultation complete
 - Currently incorporating responses into a report prior to formal consultation noting that the response was good which pick up issues which need to be included and addressed such as:
 - Raised features to be detailed
 - Extent of zone agreed
 - Restrict parking on Station Road specially where forward visibility is an issue with potential conflict.
 - Next steps
 - Statutory advertising of the TRO to propose
 - No waiting where required
 - 20mph limit on Station Road as per the consultation,
 - Subject to no objection:
 - Objection, report to be prepared considering responses and any appropriate amended variations to the intended TRO, speed limit order and vertical traffic calming proposals.
 - No objection, programme and implement scheme, it is hoped to deliver in the summer holidays but this is tight and may need to be pushed back to half term if issues/objections arise.
 - A480 Footpath Improvements
 - Early entry approved, minimum 2 weeks' notice required.
 - BBLP programming the project and mobilising for the Ground Investigation Survey.
 - As soon as a programme has been submitted this will be shared.
 - A480 TRO
 - Working with the applicants with the application.
 - S106 funds to pay for the TRO process
 - S106 or condition to implement the findings of the TRO
-
